Frontend Developer Intern

Dwarka More , Delhi

Feb - May 2023

I got the opportunity to work on a fascinating project during my internship that employed HTML, CSS, and JavaScript to create a "Transportation Website Dashboard".

CAREERGUIDE.COM

Frontend Developer Intern

Delhi Gate, Delhi

Mar – Aug 2024

At CAREERGUIDE.COM, I served as a Frontend Developer Intern, primarily focusing on designing and developing web pages using HTML, CSS, JavaScript and React.

Projects

TextUtils App : A Text Editor

- Developed a text editor application using **ReactJS** with features including text formatting (uppercase, lowercase, capitalize), removing spaces, copying to clipboard, clearing text, downloading text, and text-to-speech conversion.
- Implemented a responsive user interface with **Bootstrap** and custom CSS for enhanced user experience
- Deployed the app on :
 - GitHub : <https://github.com/DeepakDas2d/utils-text-editor-react-app>
 - Netlify : <https://utils-text-editor.netlify.app/>

Tech Stack : HTML, Bootstrap, JavaScript, React

NewsApp : Using ReactJS

- Developed** a news application using **ReactJS** that fetches and displays the latest news from various sources through the **NewsAPI**.
- The app features top headlines, different news categories, **infinite scroll**, and a **top loading bar**.
- Styled using **Bootstrap** for a **responsive design**.
- Deployed the app on :
 - GitHub : <https://github.com/DeepakDas2d/newsapp-react>
