SUMMARY

I have 1 year of experience developing front-end web applications with JavaScript, ReactJS, HTML5, and CSS, with special focus on product development for startups. I am quite good at using Postman and debugging tools for API testing, integrating frontend and backend REST APIs, and creating responsive web applications from UX mockups. I also have excellent teamwork and communication abilities, and I pick up new technology fast.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, JAVA, SQL, MongoDB
- **Frameworks:** React.js, Redux, Tailwind CSS, Bootstrap, Material-UI, Axios, React Router, RESTful API, SASS,
- **Tools :** JWT, Git, GitHub, Webpack, Babel, JIRA, Jest , React Testing Library, JSON, Postman, npm

WORK EXPERIENCE

CareerGuide.com – Delhi Gate

March 2024 – Aug 2024

Frontend Developer Intern

Developed and optimized the entire UI of the CareerGuide career module, integrating APIs with sorting and search functionality using debouncing. I also implemented a payment gateway using Razorpay and focused on search engine and performance optimization. Additionally, I coordinated with the backend team for seamless API integration.

LOGIX FIRM - Dwarka, New Delhi

Feb 2023 – May 2023

Web Developer Intern

Project: E-commerce Store

Developed a role-based e-commerce platform that allows users to log in, purchase products, add items to their cart, rate products, update their profiles, and complete payments. Admins have the ability to create, update, and delete products, manage users and reviews, and access a dashboard displaying charts for product, order, and user details. Additionally, I collaborated with backend teams to streamline order processing, ensuring platform integrity during high-volume conditions.

EDUCATION

DSEU Dwarka (Dwarka New Delhi)

May 2023

Diploma in Information Technology Services & Management

I have done 3 years diploma in Information Technology with 84%.

Senior Secondary School Certificate (CBSE)

May 2019

Completed 12th in Commerce with Mathematics from CBSE with 80%.

Secondary School Certificate (CBSE)

May 2017

Completed 10th from CBSE with 8.0 CGPA.

PROJECTS

Portfolio Link: <https://my-portfolio-deepak-das.vercel.app/>

NewsApp (Link : <https://github.com/DeepakDas2d/newsapp-react>)

Developed a news application using ReactJS that fetches and displays the latest news from various sources via the NewsAPI. The app features top headlines, multiple news categories, infinite scroll, and a top loading bar, all styled with Bootstrap for a responsive design.

TextUtils App (Link : <https://github.com/DeepakDas2d/utlis-text-editor-react-app>)

Developed a text editor application in ReactJS that includes features such as text formatting, space removal, clipboard copying, text clearing, downloading, and text-to-speech conversion. The responsive UI is designed with Bootstrap and custom CSS for an enhanced user experience.
